CAREER OBJECTIVE

A motivated and detail-oriented Computer Science student currently pursuing my degree at Karpagam Institute of Technology. I have foundational knowledge in Java, Software Testing , Cloud, Networks and SQL, with a strong interest in software development and problem solving. Eager to apply my technical skills in a real-world environment, learn new technologies, and contribute effectively as a fresher in a growth-oriented organization .

EDUCATION

- B.E. Computer Science and Engineering (2023 -2027)
- CGPA : 8.06
- Government Higher Secondary School
- Percentage : 89.08%

TECHNICAL SKILLS

Programming languages:

- Java (Basics)
- Python (Basics)
- SQL

Networking:

- Network Fundamentals
- TCP/IP & IP Addressing
- Routing & Switching
- Basic Network Security

Tools and Technologies:

- Database Management System (DBMS)
- Cisco Packet Tracer
- Microsoft Azure Fundamentals
- GitHub

Software Testing:

- Manual Testing
- Selenium WebDriver (Python)
- Bug Reporting

PROJECTS

AI & IoT Enabled Smart Waste Segregation and Resource Management System

Developed a smart waste management solution using AI, IoT sensors, and QR-based authentication to automate waste segregation. The system enables real-time monitoring of bin status, waste classification, and cloud-based data management while encouraging proper waste disposal through a reward mechanism.

Web Application Testing of TICHl Website using Selenium WebDriver

Developed and automated the testing of the TICHl web application using Selenium WebDriver with Python. Performed functional testing by automating user interactions such as login, navigation, and form validation. Used Selenium WebDriver to identify UI elements and execute test scenarios, improving testing efficiency and ensuring the application's functionality and reliability.

INTERNSHIPS

• Web Development Intern

Completed internship in Web Development, gaining hands-on experience in designing and developing responsive web pages using modern web technologies.

• FrontEnd Development Intern

Worked on front-end development concepts, creating user-friendly interfaces and improving website responsiveness and user experience.

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900)
- Front End Development Internship Certificate
- Web Development Internship Certificate
